

Want to Find More Health Consumers and Qualified Patients Who Are Seeking Your Unique Services?

Connect with the right patients at the right time with the Physician Finder System™

The Physician Finder System™ is a smart and secure, yet simple solution uniquely designed for medical device and biopharmaceutical companies. The Physician Finder System™ allows you to showcase your physicians and their unique abilities – thereby driving more patients to your products and services. The Physician Finder System™ allows qualified patients around the world to search your database of practices and match with local, trained physicians – directly from your website.

- **Health consumers** are seeking expert clinicians who are trained in your procedures and services.
- **Clinicians** want to connect securely with local consumers who can benefit from their unique services.
- **Biomedical leaders** want metrics that enhance sales calls, build relationships, and deliver continuous customer value.

The Physician Finder System™ is uniquely designed to meet the needs of medical device and biopharmaceutical companies.
